HANOI METROPOLITAN UNIVERSITY

## CALL FOR PAPERS

International Conference

### QUALITY ASSURANCE OF APPLICATION - ORIENTED POSTGRADUATE EDUCATION International experience and Vietnamese practice

#### CONFERENCE GOALS:

The Conference is a forum for researchers, lecturers, graduate students of Hanoi Metropolitan University, domestic and foreign scientists to share research results and experience, thereby to connect postgraduate research and training cooperation with domestic and foreign scientific units and organizations, for the purpose of training development, especially for the application-oriented postgraduate education of Hanoi Metropolitan University.

#### CONFERENCE THEME

To contribute to the quality assurance of current postgraduate education, Hanoi Metropolitan University in cooperation with the People's Committee of Hanoi and the Ministry of Education and Training hold an international scientific conference on "Quality assurance of application-oriented postgraduate education: International experience and Vietnamese practice".

The international conference provides an open platform for scholars, researchers, lecturers, postgraduate students to meet and share their recent research, exchange ideas and information on quality assurance of application - oriented postgraduate education.

We welcome papers that are either theoretical or empirical, which are related to Vietnam's and other countries' postgraduate education. Possible topics may include, but not limited to, the followings:

- Trends and demand for training high-quality human resources at postgraduate level; Strengths, limitations, opportunities and challenges of postgraduate training associated with Vietnamese and international experiences;
- Concept, principles, content, system of quality assurance processes associated with relevant quality criteria and indicators;
- Orienting training development, linking scientific research with training and serving the community of the training institution in different stages;
- Training standards according to training programs, subjects/modules, including: input standards, operating standards (operations) and output standards;
- Internal and external quality assurance system; Conditions to ensure the quality of graduate training such as: team development, facilities, teaching/training facilities, finance, high-quality learning resources connected to international networks;
- The "Training Institution - Learners - Society/Graduate User" partnership engages in training and mobilizes resources for application-oriented graduate training through quality assurance.

#### LANGUAGE USED IN THE CONFERENCE

Vietnamese and English

#### PUBLICATION OPPORTUNITIES

In concertation with the conference organizers, high-quality papers will be considered for publication in:

- Journals in the Scopus/Web of Science - WoS directory;
- Proceedings of the International Review Conference (with ISBN code);
- Other journals (to be announced).

The invitation for submission will be sent to authors after the conference.

#### SUBMISSION GUIDELINES
